Around the World News of Population and Birth Control

The only international journal concerned solely with the world-wide problems of population and birth control.

—requested by libraries, universities, and sociological organizations;

—quoted by public speakers and newspaper correspondents.

Published ten times a year by the
INTERNATIONAL PLANNED PARENTHOOD FEDERATION

The IPPF, a federation of voluntary associations for family planning and governmental agencies in twenty-eight countries, believes that

—family planning is a fundamental human right;

—a favourable balance between the populations and natural resources of the world is an indispensable condition of lasting world peace;

—that such a balance is unattainable unless knowledge of planned parenthood is extended.

Annual subscription to the NEWS, 10/-; \$2.00. For information and sample copy, write to: IPPF, 69 ECCLESTON SQUARE, LONDON, ENGLAND.

RECENSIONI.

Reviews of Italian, English, American, French, German, Dutch, Belgian, Chinese, South-American Books.

GENUS

Accepts scientific articles, papers, notes, and communications written in Italian, English, French, German and Spanish in the field of the different sciences related to population problems (Demography, Sociology, Economics, General Biology, Genetics, Eugenics, Anthropology, Social Hygiene, Psychology, Geography).

Orders should be addressed to: Segreteria del Comitato Italiano per lo Studio dei Problemi della Popolazione, Via delle Terme di Diocleziano, n° 10—Roma (III-8°) (Italy).

of men and women to control their fertility by means of contraceptives. He traces the development of the methods now in use and considers their merits and deficiencies and why they fail. The medical, social and economic indications for their use and the attitude of church and state, not only in the U.S.A. and the U.K., but in many parts of the world are incisively discussed. Space is given to outline some of the research work now going on in various parts of the world to develop simpler and better methods of controlling fertility and the author enters a plea for a much more generous expenditure of national resources to help solve this very urgent problem.

The next six chapters cover sterilization and abortion. The author gives an admirable summary of how these two more drastic and controversial methods of preventing births are

utilized and controlled in different countries. He points out how various cultures, as for example in India and Japan, modify public attitudes towards these things, and how difficult it is to alter these attitudes, although, as he says, "laws regulating man's conduct are made by man, they *can* be changed, unlike the laws of the universe. . . . Americans are particularly prone to believe that (for example) the abortion law, like the law of gravity, is unchangeable." Dr. Guttmacher himself clearly feels that in his own country and in ours there is great need to revise and clarify the law, both on sterilization and on abortion.

Finally, there are two chapters on infertility and artificial insemination, dealt with in a refreshingly forthright and sagacious manner.

Two new WILEY books

BEHAVIOUR GENETICS

by

JOHN L. FULLER & W. R. THOMPSON

The relationship between heredity and behaviour has long been a controversial subject in both scientific and non-scientific circles. Yet, despite this interest, there is a surprisingly small quantity of scientific literature on the subject. Here at last is a book which offers an objective and comprehensive account of modern scientific endeavour in the field of behaviour genetics. It represents the joint effort of a biologist and a psychologist, both of whom have been actively engaged in intensive research of recent years on heredity and behaviour.

396 Pages Illustrated 72s.

PRINCIPLES of GENETICS

by

ELDON J. GARDNER

With the purpose of developing a full account of modern genetics, the author concentrates on the basic fundamentals of the science, rather than on particular materials or techniques. Examples are cited in the cases of human beings, as well as animals and plants, and microbial genetics is included where appropriate. Ever present throughout the text are illustrations of the experimental nature of this fast growing science.

While written especially for use in the classroom, this textbook will interest all who are looking for information on the modern science of genetics.

366 Pages Illustrated 60s.

The Indian Journal of Economics was founded by the late Professor H. Stanley Jevons in 1916. Volume 40 starts with issue No. 156. Subscription per volume (four issues including postage) is Rs 17 £1/6/- or \$3.80.

This Special Number costs Rs. 6.50, 10/- or \$1.50 up to October 31st, 1961 and Rs 8 12/6 or \$1.80 thereafter. Write to the Managing Editor, Indian Journal of Economics University of Allahabad, Allahabad-2 (India).

THE AMERICAN JOURNAL OF HUMAN GENETICS

A quarterly record of research, review and bibliographic material relating to heredity in man, published by THE AMERICAN SOCIETY OF HUMAN GENETICS.

Editor

ARTHUR G. STEINBERG,

Western Reserve University, Cleveland 6, Ohio

The editor and his staff of associates will be glad to consider manuscripts pertaining to human genetics.

Subscription to THE AMERICAN JOURNAL OF HUMAN GENETICS or information pertaining to subscription should be addressed to the Treasurer of the Society, Dr. H. Warner Kloepfer, Tulane University, New Orleans, La. The subscription price per volume is \$10.00. A volume consists of 4 numbers. Single numbers cost \$3.00. The first volume was published in 1949. One volume has been published each year since then.

Correspondence pertaining to membership in THE AMERICAN SOCIETY OF HUMAN GENETICS or to general society affairs should be addressed to the Secretary of the Society, Dr. W. J. Schull, Department of Human Genetics, University of Michigan, Ann Arbor, Michigan.

THE EUGENICS SOCIETY

OBJECTS:—To study the influences that may modify inborn human qualities; to formulate and support policies for developing these qualities to the utmost advantage; to promote research on eugenic problems; and to foster a responsible attitude to parenthood.

Conditions of Election to Fellowship.—Election to the Society's Fellowship is restricted to persons who have made, or might be expected to make, some contribution to eugenics or to the activities of the Society.

Fellows are elected by the Council, but no candidate shall be elected a Fellow unless he has been proposed and recommended by a Fellow.

Applications for Membership should be addressed to the Secretary, Eugenics Society, 69 Eccleston Square, London, S.W.1. Members receive the *EUGENICS REVIEW* free, are entitled to attend lectures, discussions and general meetings, and have the use of the library. Annual Subscription £2 2s. od. per annum.

Those who are not members can subscribe for the *EUGENICS REVIEW*. Communications regarding subscriptions to the *EUGENICS REVIEW* should be addressed to the Secretary.

Editorial communications and Books and Periodicals for review should be addressed to the Editor.

APPLICATION FORM

To the Secretary of the Eugenics Society
69 Eccleston Square, London, S.W.1
